SUMMARY

Product Manager with 10+ years building technical products at startups and enterprises, now focused on conversational AI. As a Product Manager at a Fortune 50 telecom company (through Capgemini), I work on an omnichannel chatbot that handles 300K+ sessions a day at 78% containment as it moves to Google ADK. I took a field-tech assistant from 0 to 10,000+ chats a day in 4 months, and built, hands-on with AI coding tools, a Gemini-powered transcript analysis tool that now has 1,000+ internal users. Personal projects in agentic systems and AI tooling reflect the same builder-first approach.

WORK EXPERIENCE

Capgemini — Product Manager

JUN 2024-PRESENT · PHILADELPHIA

Client: Fortune 50 Telecom — Omnichannel Virtual Assistant

- Product manager for an omnichannel customer-service chatbot that handles 300K+ sessions a day across app, web and messaging, with 78% containment.
- Helping move IVR and chatbot modules from a legacy stack to Google ADK / Conversational Agents, coordinating 5 teams across 3 orgs.
- Took a field-tech assistant from 0 to launch in 4 months. It now serves 100+ technicians and handles 10,000+ chats a day.
- Prototyped a generative Conversational Agents Playbook and shipped it to production. It cut escalations to human agents and saves millions a year.
- Owned the Sales and affordable-plan enrollment modules in the omnichannel IVR migration.
- Built a Gemini-powered chat transcript analysis tool hands-on with Claude, Antigravity and other AI coding tools. I co-built the first version with the product director and an engineer, and it now has 1,000+ internal users with ~100 active each day.

GOOGLE ADK · CONVERSATIONAL AGENTS · CX AGENT STUDIO · VERTEX AI · CLOUD RUN · DIALOGFLOW

Foradian Technologies — Product Manager

SEP 2018-OCT 2021 · BANGALORE

Product: Fedena SaaS SIS · Uzity SaaS LMS (40,000+ institutions)

- Consolidated messaging into integrated Email + WhatsApp platform → 40% productivity increase.
- Designed and launched Gradebook module across 10+ countries → 20% retention increase, 15% sales growth.

SKILLS

Build

GOOGLE ADK · VERTEX AI · CONVERSATIONAL AGENTS · CX AGENT STUDIO · DIALOGFLOW · GEMINI APIS · FLUTTER · SWIFT / IOS · FIREBASE · REACT · ASTRO · TAILWIND CSS · FIGMA · LOOKER · MIXPANEL · SQL · PYTHON · GITHUB · JIRA · NOTION

Approach

0 → 1 product development — from problem discovery to shipped product

Roadmap & backlog prioritization across competing stakeholder needs

Cross-functional leadership with eng, design, data, and business teams

Agile / Scrum delivery (CSPO certified) — sprints, retros, and release planning

User research & discovery — interviews, journey mapping, and usability testing

Agentic & conversational AI system design — flows, fallbacks, and HITL patterns

Data-informed decisions using analytics, funnels, and experiment readouts

Technical fluency across web, mobile, APIs, and cloud — enough to build prototypes

- Launched the Fedena Mobile App (Android + iOS) → 30% adoption increase.
- Drove gate management (QR/Barcode) and post-MVP owner dashboard → 30% productivity increase.

Foradian Technologies — Software Engineer / Business Analyst

AUG 2012–AUG 2018 · BANGALORE

- Researched and built new Fedena SIS features → 15% user engagement increase.
- Transitioned into proxy product owner role; translated customer needs into PRDs with CTO and engineering.

Web Serves Inc — Business Analyst (Volunteer)

JAN 2022–DEC 2022 · NEW YORK

- Redesigned company website with SEO and digital marketing focus.
- Introduced Agile tracking tools (Intervals, Freedcamp); generated board-level reports.

PROJECTS

Enterprise Virtual Assistant · Enterprise · Product manager on a high-volume omnichannel chatbot: moving it to Google ADK and shipping its first generative AI features.

Chat Transcript Analysis Tool · Enterprise · An internal Gemini tool that scores chatbot conversations for sentiment, writes summaries and generates agent metrics. I built it hands-on with Claude and other AI coding tools.

ADK Human-in-the-Loop Middleware · Personal · A pause-and-approve middleware for Google ADK agentic flows — open-source proof of concept.

CX Agent Studio Product Review · Personal · Independent product breakdown of Google CX Agent Studio — connecting enterprise patterns to ADK HITL concepts.

Fedena Mobile App · Enterprise · 0→1 launch of the Fedena Mobile App (Android + iOS) for school admins, parents, students, and teachers — drove a 30% adoption increase.

Fedena Gradebook · Enterprise · Designed and launched the Gradebook module across 10+ countries — 20% retention lift, 15% sales growth.

Fedena ID Cards · Enterprise · Let schools design and print their own student and staff ID cards and certificates from Fedena records, instead of relying on outside print vendors.

UniVault Link Manager · Personal · iOS link manager app — save, organize, and revisit URLs with smart tagging.

Customizable Wordle App · Personal · A Flutter clone of Wordle with custom word lists, difficulty modes, and themes.

Custom Fitbit Watchface · Personal · A minimalist watchface built for the Fitbit SDK — daily goals, weather, and battery at a glance.

EDUCATION

M.S. in Information Systems
New Jersey Institute of Technology
JAN 2022–DEC 2023 · NEWARK, NEW JERSEY, USA

Executive MBA
NMIMS Bengaluru
JAN 2016–DEC 2017 · BANGALORE, KARNATAKA, INDIA

B.S. in Computer Science Engineering
Biju Patnaik University of Technology
JAN 2008–DEC 2012 · BHUBANESWAR, ODISHA, INDIA
